

EMPLOYEE HANDBOOK

How We Work

A practical guide to decisions, communication, time, and care at Good Company

This handbook sets the default operating agreements for a distributed team. It explains how decisions are made, how focus time is protected, and how people ask for help before a small issue becomes a large one.

OUR WORKING AGREEMENTS

1

Write it down

Important decisions, context, and ownership belong in shared systems rather than private messages.

2

Protect focus

No-meeting mornings and explicit response expectations make deep work possible.

3

Escalate with care

Raise risks early, describe impact clearly, and bring a proposed next step whenever possible.
