CYCLE TIME

+28%

CAPACITY

6 WKS

ROLL OUT

Planning moved from a weekly report to a shared habit.

-41%

CYCLE TIME

+28%

CAPACITY

6 WKS

ROLL OUT

BEFORE

Managers rebuilt the same status report every Friday and escalations arrived too late.

CHANGE

Relay connected demand, capacity, owners, and exceptions in one weekly operating view.

RESULT

Leaders reclaimed planning time while teams made faster, more consistent tradeoffs.

Six weeks from first workflow to operating rhythm.

Relay gave every manager the same facts before the meeting started. That changed the quality of every decision.
